## THE DIGITAL WORKPLACE

# IVU.pad

## THE DIGITAL WORKPLACE

IVU.pad is a digital assistant for drivers, service personnel and office-based employees. The mobile app keeps you in the loop – any time, anywhere. Important documents such as duty schedules, manuals and forms are available at the touch of a button. At the same time, IVU.pad also supports the most important processes, from duty sign-on to damage reports and duty changes. With IVU.pad, heavy briefcases full of papers are a thing of the past.

All the benefits of IVU.pad at a glance:

### ■ Comprehensive and up-to-date

For new construction sites, vehicle damage or a postponed duty start, with IVU.pad, all the relevant information is always available, both online and offline.

### ■ Efficient and transparent

From acknowledging work schedules and specifying desired hours to recording work activities at a later date, IVU.pad supports a variety of work processes, documents them and reports the results directly to the dispatch managers. This reduces workloads and speeds up processes.

### ■ Simple and intuitive

IVU.pad is easy to use, information is easily accessible, and forms are quick to fill in. After all going paper-free works just as well – less paper to carry and better for the environment.

### ■ Encrypted data transfer

The app is not tied to any specific device or platform, and data transfer is encrypted. Interfaces connect IVU.pad to peripheral systems. This allows it to be seamlessly integrated into your existing IT landscape.

## Communication

### EVERYTHING ON SCREEN

Communication with the personnel dispatch at your fingertips

### DIRECT LINE

Live updates straight from the personnel dispatch

### REACT QUICKLY

Report vehicle status and fault reports immediately

## Administration

### ORGANISE WORKING HOURS ON THE GO

Report readiness for duty, duty sign-on and end, acknowledge duty orders, confirm duty activities, and record actual work times

### PLAN WORKING HOURS ONLINE

Integrated duty and shift exchange; submit duty and modification requests directly to dispatch

### CLEAR RECORDS

Report accidents, disruptions and damage, work through checklists

### LEARN EFFECTIVELY

Access to training portals and materials for online learning

### VIEW TIMETABLES

Split document view for working timetables and speed restrictions

## Information

### EVERYTHING TO HAND

Timetables, duty schedules, vehicle information, manuals, rule systems, forms etc.

### INTRANET TO GO

View all the relevant data on the go, both online and offline, such as time sheets, payroll accounting etc.

### ALWAYS UP-TO-DATE

Up-to-date information on construction sites, disruptions and speed limits
